TOTALS & AGGREGATE RISK WEIGHTS	63,220.0	—	—	—	7,849.25

STATUTORY FOOTNOTES, REGULATORY METHODOLOGY & LEGAL DISCLAIMERS

- * **Base Capital Ratio** represents statutory Pillar 1 minimum tier requirements under Basel Committee on Banking Supervision (BCBS) Standard 402(a).
Non-compliance triggers mandatory capital distribution constraints under Section 165 of Dodd-Frank.
- ** **Countercyclical capital buffer** activated by the regulatory board pursuant to macroprudential stress assessment conducted on March 15, 2024.
Buffers must be satisfied exclusively with common equity tier 1 (CET1) capital instruments.
- *** **G-SIB systemic surcharge** applied in accordance with bucket 2 designation based on multi-indicator score methodology.
Includes cross-jurisdictional activity, size, interconnectedness, substitutability, and complexity.
- † **Net Risk Exposure** is computed strictly via statutory formula: **Weighted Exposure * (Base Ratio + Buffer Requirement + Effective Surcharge) / 100**.
Subject to external audit validation by accredited independent supervisory examiners.
